

**POLYMER RANGE – Industrial Buildings**

**1560 BOLLARD COVER KIT Ø168**

**SPECIFICATION CATEGORY – Q41 (Barriers & Guardrails) Q50 (Street Furniture)**

**DESCRIPTION**

BCK-168-1560-YB – Ø168 Polymer Bollard Cover Kit 1560mm high – Uniquely moulded polymer cover kits, push-fit that simply slide over your new/existing steel bollards without the need for repainting. The cover kits are filled with foam to cushion impact and can be used in any areas with Ø168 bollards to help decrease the amount of damage when struck, allowing the end-user to replace the kits rather than the bollard itself. 50mm diamond grade reflective bands for improved night visibility and integration of different colourways allows you to choose the ideal style to suit your needs.
