

HGV Trailer Landing Plate

Stop costly erosion to your loading dock concrete slab with polymer landing plates

Features & Benefits

- HGV Trailer Landing Plates provide visible landing positions for your static trailers (Polymer Yellow)
- Simple M10 SDS drill & fix installation make this a great upgrade to existing loading docks suffering 'dishing/erosion' to concrete slabs – some repair to slab may be required to slab prior to fitment!
- Chamfered edges & countersunk floor anchors make this bright yellow landing plate pedestrian friendly
