

Height Warning - Clatter Bars

For restricting forklift mast heights & protection for doors & mezzanine

Features & Benefits

- Simple but effective solution to 'WARN' of height restrictions and act as a visual/audible 'CLATTER' if forklift masts are too high for entry into restricted height areas
- Modular design - you can line the entire mezzanine perimeter and alert all your operators to observe the safety hazard/risk
- Suspended on chains - installation is a simple process and low-cost
- Highly visible height warning - Clatter Bars in VIBRANT yellow with black end caps
- Optional signage to display "Maximum Height Restriction ____ Metres"

Technical Specification

UK Manufacture

- Manufactured in the UK from high density polyethylene - standard lengths 2400mm long
- 120mm Diameter Rubber End Caps, suspended from your structure with steel chains
- Options for steel clatter bars powder coated red or yellow
