

# Modular Goalpost Protection

Protect expensive mezzanines and rapid rise / roller doors from damage

## Features & Benefits

- A truly modular Goalpost system for ease of erection & installation on-site
- Configurable to heights and widths of up to 7 metres means this solution will cope with all door sizes in industrial buildings
- Also used to control height of MHE vehicles passing under mezzanine floors
- Attractive design, easy transport & simple installation keeps cost at the optimum whilst providing robust mezzanine access and door protection

## Technical Specification

UK Manufacture

- Modular components;
  - Steel bollard bases 10mm thick c/w chemical resin floor anchors
  - Slide over polymer covers – black & yellow
  - Bolt-fix uprights
  - Spigot joined cross-bars
- Potted option – diamond core-drill slab 200mm dia x 300mm deep
- All steelwork hot dip galvanised finish to BS EN ISO 150 1461
- 210mm Dia black & yellow cover kits – moulded in the UK from food safe grade polymer
- Options for side connected barriers and custom configurations
