Height	300mm or 600mm Euro D and E 600mm high as standard Bespoke sizes available on request
Upright Width*	Euro A: Up to 87mm front facing Euro B: Up to 100mm front facing Euro C: Up to 120mm front facing Euro D: Up to 127mm front facing Euro E: Up to 130mm front facing
Colour Options	Hi Vis Yellow, Safety Yellow, Bespoke (POA, MOQs may apply)

Description

Manufactured from low maintenance High Density Polyethylene (HDPE), Rack Armour guards are durable and extremely effective in preventing damage to uprights.

Available in a range of striking, high visibility colours that are easily detectable.

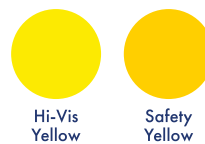

Fully recyclable and non-toxic. The original Rack Armour is suitable for use in food production facilities and freezer environments.

Testing

Rack Armour has been tested to international standards, including FEM 10.2.02. The results demonstrate the Rack Armour guard protected the upright from any noticeable damage when subjected to impact typical of an MHE operating along racking aisles. Please enquire for further information.

*Some rack types do have wider/deeper side profiles which sometimes require a larger Rack Armour guard. If you are unsure on which size your customer requires, please contact us on the number below.
