

Single Bumper Barrier

Combines strength and visibility to maximise space. These single bumper barriers flex and absorb upon impact due to its unique design. They offer complete warehouse protection by creating safe zones of highly visible barrier systems. They provide the right amount of visibility and strength, whilst maximising space in the warehouse.

These barriers have been tested to meet and exceed the global PAS 13 standard, as independently certified by TÜV Nord.

Product Features

- Flexes under impact to reduce floor damage
- Quick and easy installation - all fixings provided
- High visibility colours clearly gives safe working boundaries for MHE drivers
- Available in single or double options
- Single barriers stand at 370mm high

Technical Details

- Use in ambient, chilled and freezer environments
- Non toxic material
- Fully recyclable

Product Specification

Material	High density polyethylene (HDPE) polymer
Height	370mm
Width	300mm (footplate)
Length	900mm upwards
Temperature range	Use in ambient, chilled and freezer environments
Floor anchors	Hilti HSA4
Colour options	Hi-Vis Yellow & Blue Safety Yellow & Grey
Barrier option	Single Bumper
Tested Impact Energy (J)	11,000*
Deflection (mm)	234

*Based on impact at 90°
