

## Floor Rail Bumper

Provides subtle protection that is both strong and durable. Manufactured from ballistics grade materials and fixed to the floor, these barriers are strong and durable enough to take knocks and bumps from MHE drivers. They are ideal for placing behind bays to prevent pallets being hit against walls or racking.

### Product Features

Manufactured from ballistics grade materials

Ideal for placing behind bays

High visibility colours clearly give safe working boundaries for MHE drivers

Provides subtle protection at low levels

Deflects under impact without damaging

### Technical Details

Use in ambient, chilled and freezer environments

Non toxic and fade resistant material

Fully recyclable

Suitable for use in food production facilities and freezer environments

### Product Specification

Material	High density polyethylene (HDPE) polymer
Height	100mm
Width	100mm
Length	1200mm
Temperature range	Use in ambient, chilled and freezer environments
Colour options	Hi-Vis Yellow & Blue Grey Safety Yellow
