

ImpactSAFE Bollard

Bolt Down Bollard range with built in impact absorption to cushion impact from wrenching floor anchors and protect slab from cracking under heavy impact from MHE.

Benefits from removable Polymer cover kits. These kits are available in 3 standard colour options that are ideal high warning areas.

These bollards have been tested to meet and exceed the global PAS 13 standard, as independently certified by TÜV Nord.

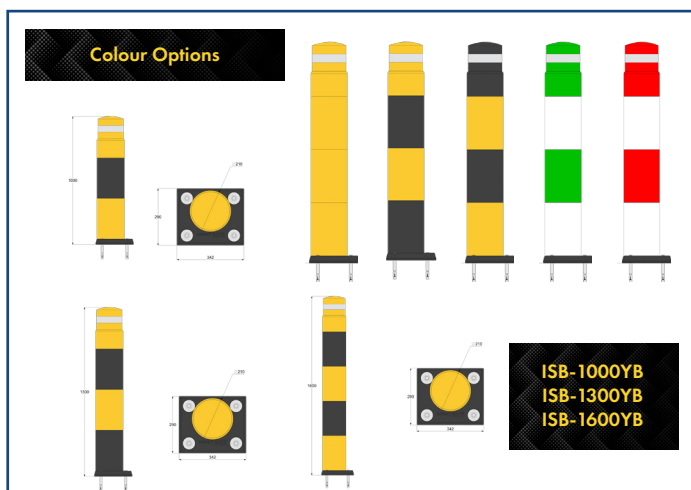

Product Features

Includes shock absorbing rubber buffers to arrest impact force

Flush finish anti-trip floor anchors

The ultimate protection for entrances and services

Removable protective polymer covers so no need to repaint

Technical Details

1000mm, 1300mm and 1600mm height options

Includes polymer bollard cover kit and 4 No. safety-plus floor anchors

168mm diameter steel core and galvanised base plate

Includes 50mm reflective band for maximum visibility

Product Specification

Material	Mild Steel/High Density Polyethylene (HDPE)/Rubber
Height	1000mm, 1300mm or 1600mm
Base	290mm x 342mm
Diameter	210mm
Recycling group	Mild Steel/PE4/Rubber
Steel core finish	Hot Dip Galvanised (HDG) BS EN ISO 1461
Fixing holes	20mm Diameter
Floor anchors	Rawl R-SPL 12150/50 (Safety Plus Anchors M12 x 150)
Tested Impact Energy (J)	6,100
Deflection (mm)	200
