

PolyWRAP Column Protector

Designed to make columns highly visible to MHE/PIT traffic operators. Clashes with columns and the protector will cushion the impact. The tough Polyethylene makes this the product of choice for most industrial facilities - no fixtures to the slab this is a simple clam-shell fitment.

The PolyWRAP is suitable for structural columns and high risk mezzanine columns where forklifts and power trucks operate.

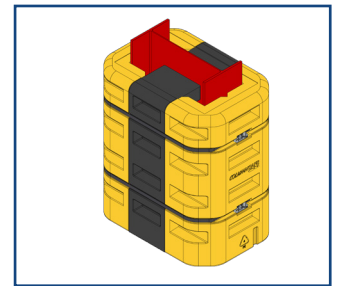

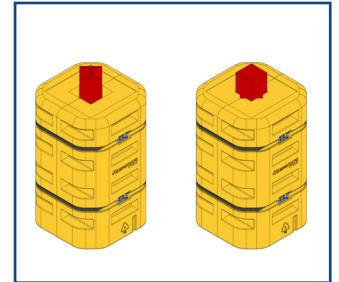

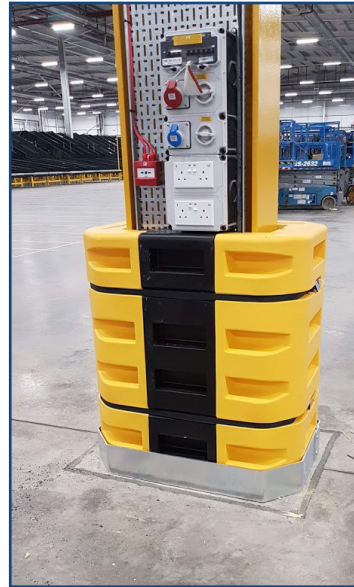

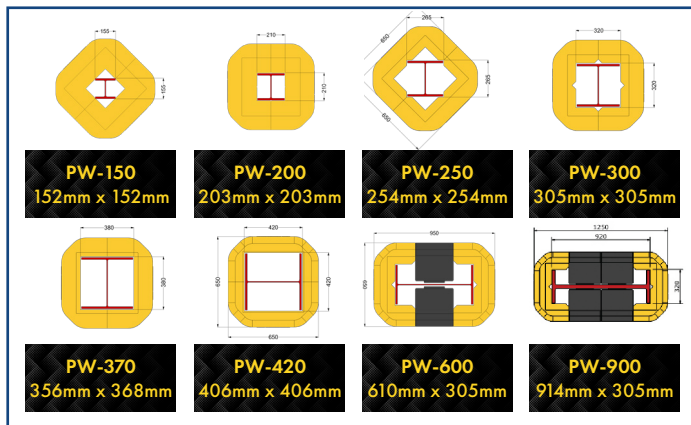

Product Features

Stackable design means columns can be easily recognised by HGV and MHE operators

Protect structural columns and vehicles from damage

The (air cushion) impact energy absorbing design, also reduces risk of operator injury

A 'snug and robust fit', secured by 250kg rated ratchet action webbing straps

Technical Details

UK manufactured from medium density polyethylene

All weather temperature range -40°C to 90°C

Available in 8 different sizes

Designed and tested to withstand in excess of 2.5 tonne impacts at 7mph

Product Specification

Material	100% recyclable Polyethylene
Recycling group	PE/4
Height	1040mm
Footprint	650mm x 650mm
Security	2 no. 25mm wide ratchet straps
Temperature range	-40°C to 90°C
Manufactured	UK
Colour	Yellow & Black - Caution/ Hazard
Size options	8 size options to suit columns 152mm x 152mm up to 914mm x 305mm
