

Armco Pedestrian Safety End

Polymer moulded high visibility Pedestrian Safety Ends for Armco Safety Barrier – provide smooth and pedestrian friendly termination to Armco Safety Barrier rail runs. Push-fit and bolted connection, makes this the perfect low-cost but safe way of terminating Armco barrier. Particularly useful for masking sharp burred cut Armco rails and also containing corrosive issues associated with cutting Armco rails on-site. Ideal for breaks in Armco Rail that create Pedestrian Access Points.

Product Features

Provides greater protection and safety for all pedestrians on the premises

Ideal for covering sharp Armco cut ends

Protect any pedestrians against snagging or scrapes from sharp rail edges

Full retrofit compatibility with all steel Armco ends

Technical Details

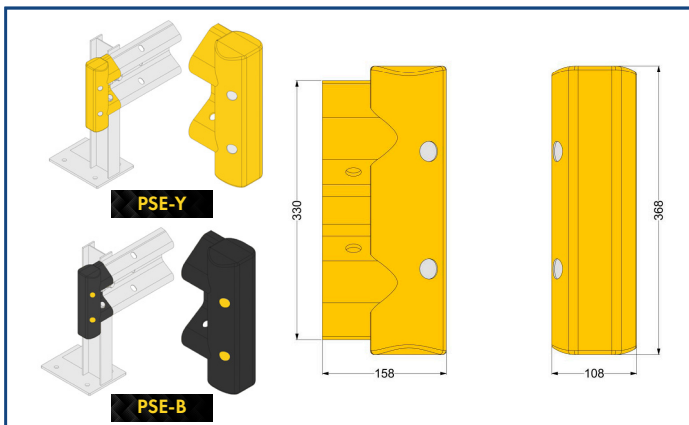

Suits Armco 310mm x 85mm corrugated rails

Bolt fix secured with 2 No. M16 x 35mm bolt-set (to suit pre-holed Armco rail)

Includes 25mm diamond grade reflectors

Supplied in Yellow or Black

Product Specification

Material	Polyethylene (M/HDPE)
Polymer formula	Colour-Fast/UV Package
Recycling group	PE/4
Manufactured	UK
Height	338mm to suit 310mm x 85mm Armco Rail
Colour options	Yellow with Silver Diamond Grade Reflectors or Black with Yellow Diamond Grade Reflectors
Fixings	2 no. M16 x 35mm Galvanised Bolt Set (NOT included)
Safety reflectors	2 no. 25mm Diamond Grade Reflectors
