

## Parking Separators

Parking spacers are used to define parking spots and stop vehicles from causing damage to buildings or pedestrians.

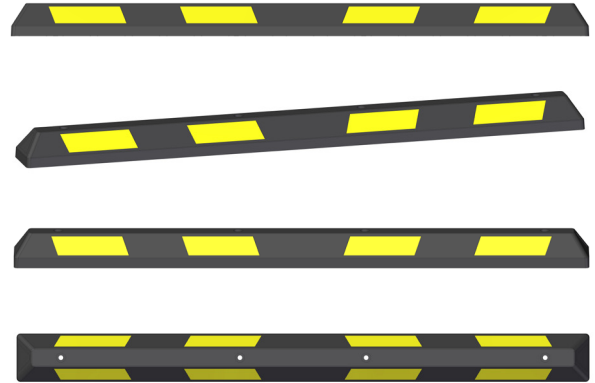

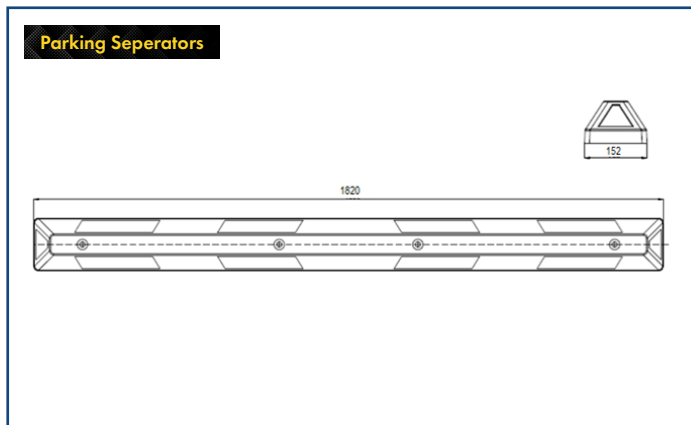

These parking separators help by optimising the use of parking space in public and private car parks.

## Product Features

Ideal for parking spaces for coaches, buses, lorries, larger vans, as well as for freight warehouses, securing docks in logistics centres

It is installed by means of expansion bolts directly into the surface of the car park

The installation requires no additional preparation of the substrate

## Technical Details

Comes in 1820mm Lengths

Manufactured from recycled truck tyres

For concrete or tarmac installation

Excellent visibility thanks to 3M reflective tape

## Product Specification

<b>Material</b>	SBR rubber granulate PUR resin, Reflective tape 3M Metal reinforcement for assembly
<b>Model Number</b>	180
<b>Length</b>	1820mm
<b>Width</b>	152mm
<b>Height</b>	102mm
<b>Weight</b>	17kg
<b>Colour/finish</b>	Black with 3M reflective tape
<b>Tensile strength</b>	≥ 1,0 MPa PN-ISO 37
<b>Hardness</b>	≥ 55 ShA° PN-EN ISO 868:2005
<b>Tolerance - length, width</b>	± 2 % of nominal
<b>Tolerance - height</b>	± 2 % of nominal
<b>Tolerance- weight</b>	± 2 % of nominal
