

## Brandsafe

Bollard Cover Kits  
960mm High

Uniquely moulded **polymer cover kits**, push-fit that simply slide over your new / existing steel bollards without the need for repainting. The cover kits are filled with foam to cushion impact and can be used in any areas with 168mm diameter bollards to help decrease the amount of damage when struck, allowing the enduser to replace the kits rather than the bollard itself.

## Features and Benefits

- Unique polymer moulded cover kits that fit over steel bollards up to 168 mm diameter.
- Modular push-fit assembly that slide over old bollards in minutes.
- Available in vibrant colours - no need for repainting.
- 960 mm high.
- All diameters can be accommodated with the addition of impact absorbing spacer kits.
- 50 mm diamond grade reflective bands for improved night visibility.
- Manufactured in the UK from polyethylene, UV stabilised.
