

Brandsafe

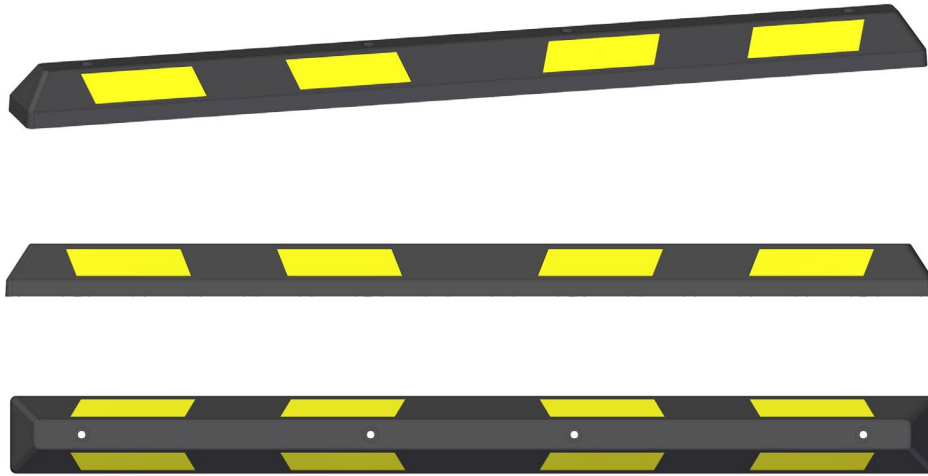

Parking Separator
Wheel Stops

Parking spacers are used to define parking spots and stop vehicles from causing damage to buildings or pedestrians. These parking separators help by optimising the use of parking space in public and private car parks.

Features and Benefits

- Ideal for parking spaces for coaches, buses, lorries, larger vans, as well as for freight warehouses, securing docks in logistics centres.
- It is installed by means of expansion bolts directly into the surface of the car park.
- The installation requires no additional preparation of the substrate.
- Comes in 1820 mm lengths.
- Manufactured from recycled truck tyres.
- For concrete or tarmac installation.
- Excellent visibility thanks to 3M reflective tape.

Material	SBR rubber granulate PUR resin, reflective tape 3M metal reinforcement for assembly
Model number	180
Length	1820 mm
Width	152 mm
Height	102 mm
Weight	17 kg
Colour options	Black with yellow 3 M reflective tape
Tensile strength	≥ 1,0 MPa PN-ISO 37
Hardness	≥ 55 ShA° PN-EN ISO 868:2005
Tolerance - length, width	± 2 % of nominal
Tolerance - height	± 2 % of nominal
Tolerance- weight	± 2 % of nominal
