

Brandsafe

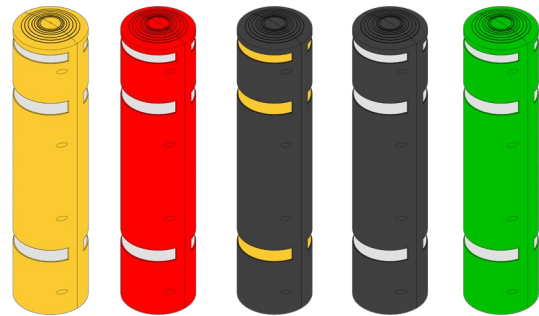

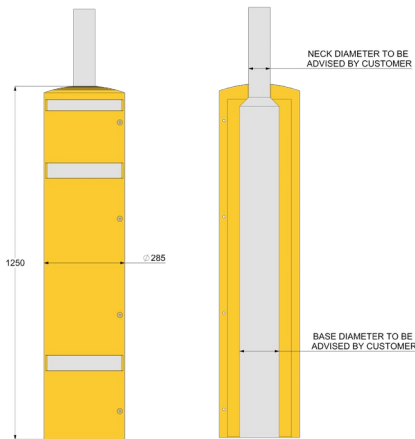

Sign Post Protector

Protects vulnerable **sign posts** against shunts and low speed impact, making them stand out and be seen by pedestrians and drivers. A radical new protector with high density foam impact absorbing core that makes vulnerable sign posts visible to drivers. Available in 5 colour options with 3 no. diamond grade reflective bands for night time visibility.

Features and Benefits

- Easy to install clam-shell design.
- Highly visible colours and diamond-grade reflector band.
- Foam core absorbs impact to reduce damage to both post and vehicle.
- Manufactured in the UK from polyethylene.
- Replace the post wrap, not the post itself!
- Available in 1250 mm high kits.
- Can be double-stacked for 2500 mm high commercial vehicle protection.
- Suitable for posts with diameters of 50 mm – 210 mm.
- High density impact cores – weather proof.
- All kits come with a foam core suitable for all sizes.
